INDICATED CROP PRODUCTION AND OCTOBER 1 FARM STOCKS, 1942  
BY CROP REPORTING DISTRICTS

To supply information which can be utilized in facilitating the storage and orderly movement of the 1942 grain crops, the Crop Reporting Board has compiled the following estimates of 1942 soybean production, and stocks of corn, wheat and oats on farms October 1 by Districts in certain of the important producing States. For each State the District estimates total to the official State figures published in the General Crop Report released on October 9, 1942. For the purpose of comparison, estimates by Crop Reporting Districts are shown for 1940 and 1941.
